Wall Township Police Press Release

Wall Township *Code Red* now offers text and e-mail notification

The Wall Township Police Department and Office of Emergency Management encourage residents to register or update their contact information for the *Code Red* reverse emergency notification system. In addition to home and mobile cellular telephone notifications, the system has been enhanced to send text and e-mail emergency notifications. This system allows police and emergency services to notify residents in the event of an emergency. Examples of emergency notifications would be gas leaks, evacuations, approaching storms, suspect searches, utility problems, and other public information. Residents can quickly and easily register or update their information online at www.wallpolice.org and follow the *Code Red* links.
